

ANGLED HANDLEBAR RISERS

PLEASE READ BEFORE YOU BEGIN

Thank you for purchasing the RSI Angled Handlebar Risers. These risers raise your handlebars straight up for a more comfortable riding position.

Disclaimer:

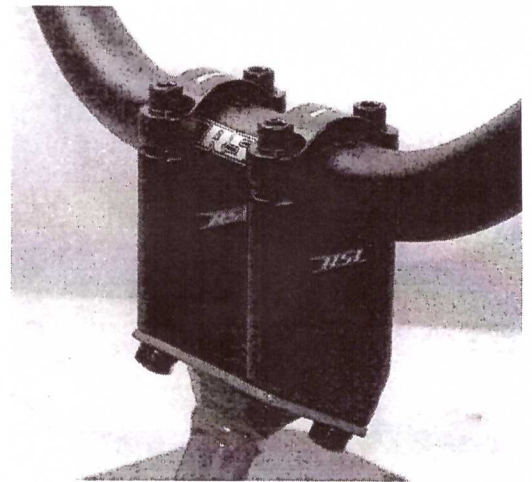

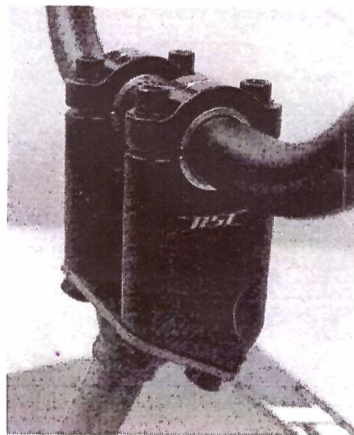

RSI assumes no liability for mechanical damage, engine damage, personal injury or crash damage of any kind do to improper installation or use of this product. The owner / operator of the snowmobile assumes all liability when using this product on their snowmobile.

INSTALLATION

- > Mount Angled Handlebar Risers to steering post and tighten bottom mounting bolts. Use an adequate thread locker on bolt threads.
- > Install handlebars onto risers and position them to your desired position and tighten down handlebar clamp bolts. Use an adequate thread locker on bolt threads.
- > Make sure you have proper function of all controls including throttle cable, brake line, and steering function before operating snowmobile.
- > Go Snowmobile!

See chart below for proper steering post drilling for your specific make of snowmobile.

Arctic Cat	No drilling required
Polaris	Drill out steering post holes to 5/16"
Ski-Doo Rev	Drill out steering post holes to 21/64" and do not install Lock washer.
Ski-Doo ZX	Drill out steering post holes to 23/64"
Yamaha	Drill out steering post holes to 3/8"
